10. Tip. It is best to arrive with a full tank of gas. You will use a lot during the day. Gas is available at the track, but is more expensive than at a gas station. Please do not run out of gas on the track.
11. Rain. We will run rain or shine. If it is wet, make sure your wipers work and you have appropriate tires.
12. Upon arrival at the front gate, you will be met by a track employee who will ask you and your guests to sign a track waiver. After you are inside look for the designated parking area and set up for the day.
13. After you park, empty your car of all loose gear. You don't want anything inside the car that is not bolted down. The same goes for the trunk.
14. Nothing handheld in the car while on track please. If you have a passenger, tell them to keep hands inside and no holding a camera or things like that.
15. Check your event schedule for the time of all driver meetings and location. This may change due to circumstances but we try to keep on time.
16. We will have snacks and coffee in the registration area for you in the morning.
